## Scruggsville

We are glad to report Mrs. Sada Hardin better this week.

Mrs. Helen Gough left Tuesday for Bloomington, Ill., where she will visit her children.

Miss Ollie Parish, Ethel Carey and Sallie Hendren were the guests of Miss Lettie Bishop last Monday.

Mrs. Mary Nickelson visited relatives at Williamsburg last week.

Mrs. Dora Trent is on the sick list this week.

Mr. Johnny Eay, of your town, is visiting Mr. N. C. Crouch and family this week.

Mrs. O. S. Carney, of Fairfield, was the guest of Mrs. Pearl Smothers last week.

Mr. Bill Castiel left last week for Illinois where he will make his future home.

There will be a pie supper at Williamsburg next Saturday night for the benefit of the church. Everybody is invited to come.

PANSY.

## No Cure of Pneumonia on Record

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unproven preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and read every substitute offered. At the Red Cross Drug Store.

## Canary

As our little village has been minus so long I will give a few items of the past.

R. C. Canary and his cousin, J. A. Johnson made a flying trip to Lebanon Saturday.

Bettie Canary is visiting relatives in Mackville this week.

Oscar Bottom bought of different parties 25 barrels of corn at \$1.50 per barrel.

Mrs. Lena B. Homs and son are visiting her parents in Seneca this week.

Mr. John Logsdon is no better at this writing.

J. A. Johnson and wife spent Saturday night and Sunday with R. C. Canary.

Lon Barker is in Mackville on business this week.

A Canary has gone to Louisville to spend a few days.

Wm. Hamby from Alton, was the guest of Oscar Bottom and wife Sunday.

## City and Food Commission's Report

The Minnesota Poultry and Food Commission's analysis shows that Kennedy's Laxative Honey and Tar and Dr. King's Laxative Honey and Tar contained opiate and croton oil. Opiates are poison and croton oil is a violent purgative. Refuse to accept any but Foley's Honey and Tar in a 7-10 package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. At the Red Cross Drug Store.

## Tatham Springs

The sick in this community are all improving except Mrs. Ada Horvath, who is sorry to report no better.

Immigrants for the South.

Kentucky has been too busy listening to Noylton Bonaparte Hays and Samuel Willbur Hager exchanging epithets to do as the Southern States have been wise in doing—stretching out hands for white immigrants of the right sort. There landed for instance, at Charleston, S. C., 500 immigrants brought out by the good ship Wittelkind. This event the Atlanta Constitution ranks as one of the most important in Southern history since Oglethorpe set in motion the forces which have developed a commercial empire from the trackless forests.

It is not the number of immigrants that counts. There were fewer to found Jamestown, or Quebec, or the Plymouth colony. The significance of the new movement lies in the fact that it has begun. There is room everywhere in the South for just the class of immigrants as the Wittelkind landed at Charleston. These were we understand, carefully selected by a commissioner sent direct from South Carolina to Europe. Well says the Memphis Commercial Appeal: "Every here is felt the population to do and

GOOD ROADS AND AUTOS.

Big Factors in Future Economy, Says Edward Hewitt.

Inside of six years, and ten at the most, we will have roads that will make the commercial automobile one of the biggest factors in the economic question of the day, says Edward Hewitt in the New York Herald.

The saving in freight rate and consequent saving to the consumer that will come through good roads for commercial and passenger transportation are bound to make the freight question one that will have to be considered by legislators.

A state commission with an appropriation sufficient to interfere the roads of this state and those of the neighboring states would be one of the most commendable of all the commissions that we could have at present. Long Island has only one road that leads to Long Island City that is worth the name.

That should not be. The freight hauling of Long Island could even now be done by automobiles with great saving to the consumer if there were roads that admitted of it.

France, Germany and Switzerland have been using the freight automobile for years, and yet we think we are a progressive nation.

The plan that we must give way as a factor of manufacture to the commercial car, and as soon as the men who control the big output of cars realize that, then the movement toward the kind of roads we must have must begin to take shape, and it is coming with the very near future.

Just as soon as the big controllers in the manufacturing market see that their future and big profit lie in the freight motor car and that they need good roads for the same they will be able to get the newspapers to start an agitation sufficiently great to force them to get the kind of legislation they need for the same.

ROAD BREAKING IN WINTER.

Value of a Snow Roller and How to Make One.

In sections where heavy snowfall persists throughout the winter the snow roller is one of the most economical devices that can be used for road breaking, says the American Agriculturist. Great success has attended the use of this kind of roller in Maine and Vermont, where the problem of keeping the roads passable during the cold winter months is particularly difficult of solution.

A road roller consists of two sections six to eight feet in diameter, each

section about five feet high, built about a central axle. This roller may be made of two inch hard wood of any sort which is heavy and durable. A roller composed of two five-foot sections is preferable, since a roadway ten feet wide is quite sufficient, and by having the roller in sections it is more easily moved and is adapted to be used for this purpose, but rollers especially designed for newly fallen snow may be constructed at comparatively small cost.

In sections where these rollers have been used by a road supervisor the region is divided into districts, for each of which a roller is provided. After a heavy snowfall the roller is drawn over the road at once by the person in charge, who is held responsible for his particular section of the highway.

Altogether this is a very economical method of road breaking, since the cost is small. In one section of Maine 100 miles of country road were broken at a cost of \$100. A well made roller will not cost over \$75 and during the winter season tenures and drivers are available at moderate cost.

Friday night.

Mr. John Logsdon aged about  
30 years and a well known citi-  
zen of the county died at his  
home in the Canary neighbor-  
hood last Sunday. The deceased  
had been a inmate of the Insane  
Asylum for about 15 years and  
was brought home only last  
week. Consumption was the  
cause of his death. A wife and  
several children survive.

A special from Danville says:  
W. L. Caldwell, the most widely  
known breeder of Jack stock of  
the state of Kentucky, died this  
morning at his stock farm near  
this city. He was known to  
every stock man in this county.  
He was one of the directors of  
the recent State Fair and was  
judge in many rings. He was  
in his fiftieth year. He was  
the son of former county Judge  
W. L. Caldwell, and was a mem-  
ber of one of the State's oldest  
families.

Deceased was known in this  
county being related to Mrs. A.  
C. McElroy and Major J. L.  
Wharton.

**Logsdon-Edelen.**  
Miss Lena Logsdon and Mr.  
James Ray Edelen will be mar-  
ried at St. Demonic's church,  
November 25th at four o'clock  
in the afternoon. Miss Lou-  
don is daughter of Mr. Chas.  
Logsdon and is an attractive  
young lady. Mr. Edelen is a  
son of Mr. J. P. Edelen near  
town, and is a bustling young  
farmer.

**Bowling Alley Open.**  
The new bowling alley under  
the management of L. D. Baker  
and located in the building for-  
merly occupied by the harness  
factory near the depot, has open-  
ed under very favorable circum-  
stances and is doing a good  
business. The alley is one of  
the best equipped ones in the  
state, having new balls, new  
pins and a fine smooth alley.  
Everybody is invited to come  
and inspect the alley. The la-  
dies and gentlemen's club will  
play once a week.

**A Good Man Gone.**  
Mr. P. C. W. Peterson, one of  
the county's oldest and most re-  
spected citizens and business  
men, died at his home in Texas  
this county on last Friday after  
an illness of several weeks of a  
complication of troubles. Mr.  
Peterson was born in Copen-  
hagen, Denmark, in 1855 and  
came to this country when quite  
a young man. He first located  
in Wisconsin from which point  
he enlisted in the Union army as  
a cavalryman. After serving  
through the war, he lived at Mil-  
waukee for several years from  
which place he moved to this  
county where he has since re-  
sided and where he has proven  
himself a valuable citizen. In  
1873 he married Miss L. J. Golden  
and to that union five sons all  
grown and married survive, as  
follows: Jacob, Henry, William,  
Thomas and John. The widow  
also survives. Mr. Peterson had  
been a merchant at the little  
town of Texas for the past 35  
years and gained a reputation  
for uprightness and fair dealing  
with everybody. Mr. Peterson  
had an honorable record as a  
soldier, although he with charac-  
teristic modesty rarely spoke of  
it. He received a major's com-  
mission during his service as cav-  
alryman, but until four or five  
years ago could not be induced  
to apply for a pension on that  
account. He did finally apply  
and was promptly granted a  
pension. Mr. Peterson possessed  
a letter which was given him at  
the close of the war of which he  
is very proud. The letter is  
one of commendation and is  
signed by Abraham Lincoln.

The funeral took place at  
Belehem church and was con-  
ducted by Rev. Purdon.

was a man who possessed many  
admirable traits of character.  
He was an honorable, intelligent  
gentleman, modest, kindhearted  
and pleasant. He put into prac-  
tice all his life the great princi-  
ple of the Golden Rule, and of  
the three graces, Hops, Polish  
and Courtesy. He believed as the  
Lord believed that the greatest  
of them was Charity. He was  
never known to refuse to lend a  
helping hand to those who  
needed help. Most of his life  
was spent in the little village  
where he died, and among all of  
his neighbors and among all of  
the inhabitants of the rugged  
hills in the eastern part of this  
county who have been trading  
with him ever since he opened  
up his little store years ago, I  
have never heard aught against  
his honor, and I believe that  
the Recording Angel has  
but a very small account against  
him, but on the credit book of  
life records I believe that there  
are many good deeds to his  
credit.

In this age when mankind is  
trampling under foot all con-  
scientious scruples in the mad  
rush for the almighty dollar it  
was a pleasure to come in con-  
tact with a man of Mr. Peter-  
son's make up, who absolutely  
at all times refused to counte-  
nance anything that savored of  
dishonor. A great poet and  
philosopher made himself im-  
mortal by saying that "An hon-  
est man is the noblest work of  
God." Such a man was P. C.  
W. Peterson. H. M. M.
